In addition, instructions have been updated in light of the modification. It is important that the product is used in accordance with the instructions and that children are never left unsupervised if the side panel is open or in a half-raised position.</p>	<p>Consumers should contact Danish by Design in Australia and they will be sent a small kit, which enables the half drop side to be fixed.</p> <p>The self-fit modification locks the side panel so that it is no longer capable of folding in half, effectively making it like the existing non-folding panel. Consumers will still be able to lower the whole panel as a bridge to the bed, giving access to the baby.</p> <p>The modification does not require any specialist skills and will take only three to four minutes to complete. The kit consists of two small screws and a screwdriver, and the screws are simply inserted into holes that already exist in the hinge of the folding panel.</p> <p>HOW TO GET THE MODIFICATION KIT</p> <p>Contact Danish by Design in Australia on email; info@danishbydesign.com.au, and we will send you the modification kit by post.
