| USA | <p>NAME OF PRODUCT:</p> <p>Breville Fast Slow Cookers</p> <p>UNITS: About 35,600</p> <p>DESCRIPTION</p> <p>This recall involves Breville 6-quart capacity domestic programmable electric pressure cookers with a brushed stainless steel construction and a 3-way safety system. The safety system consists of a locking lid, safety valve and a pressure release button. Pressure cookers with model number BPR600XL and batch numbers between 1235 and 1529 are included in the recall. The model number and batch code are located on the bottom of the unit.</p> <p>IMPORTER</p> <p>None reported.</p> <p>MANUFACTURED IN: China</p>  | <p>HAZARD:</p> <p>The sealing gasket can be incorrectly inserted upside down on the lid which can allow the unexpected release of built-up pressure. This poses a risk of burns to the user or consumers nearby.</p> <p>INCIDENTS/INJURIES</p> <p>Breville USA has received five reports of steam or hot contents escaping from the pressure cooker, resulting in five reports of burns, including second degree burns to the hands, arms or stomach.</p> | <p>Consumers should immediately stop using the recalled pressure cookers and contact Breville for a replacement sealing gasket and updated instructions.</p> |

|-------------------|--|--|------------------|
| USA | <p>NAME OF PRODUCT: Bean bag chairs</p> <p>UNITS: None reported.</p> <p>DESCRIPTION WASHINGTON, D.C. – The U.S. Consumer Product Safety Commission (CPSC) and Ace Bayou Corp., of New Orleans, La., are reannouncing the voluntary recall of about 2.2 million bean bag chairs sold from 1995 to 2013. Only 790 consumers, who purchased the bean bag chairs, have responded to the recall. CPSC and Ace Bayou are urging consumers to install the free repair kit to permanently disable the bean bag chairs’ zippers so that they cannot be opened.</p> <p>CPSC is extremely concerned that these recalled bean bag chairs are continuing to be used by children. The foam beads inside the chairs are serious suffocation and choking hazards for children. Two children died after suffocating on the chair’s foam beads. An additional incident has been reported to CPSC involving a 6 year old boy who opened bean bag and reportedly swallowed some foam beads and had others in his nose and mouth.</p> <p>The recalled bean bag chairs have two zippers, including an outer zipper that does not have a pull tab and another zipper directly underneath that zipper. Although the outer zipper on the bean bag chair does not have a pull tab, children can open it. Once they have opened the outer zipper, they can open the inner zipper which contains the foam beads and crawl inside. Children can suffocate or choke on these foam beads. The voluntary standard requires non-refillable bean bag chairs to have closed and permanently disabled zippers. Ace met the voluntary standard’s requirement for a warning label.</p> <p>The two deaths involved a 13-year old boy from McKinney, Texas died and a 3-year-old girl from Lexington, Ky. who suffocated from lack of air and inhaling the chair’s foam beads. Both children were found inside the chairs.</p> <p>The recalled chairs with zippers that can be opened were sold in a variety of sizes, shapes, colors and fabrics. They include round or L-shaped, vinyl or fabric, and are filled with polystyrene foam beads. They were sold in a variety of colors, including purple, violet, blue, red, pink, yellow, Kelly green, black, port, navy, lime, royal blue, turquoise, tangerine and multi-color. The round bean bag chairs were sold in three sizes, 30, 32 and 40 inches in diameter. The L-shaped bean bag chair measures 18 inches wide by 30 inches deep by 30 inches high. “ACE BAYOU CORP” is printed on a tag sewn into the bean bag chair’s cover seam. They were made in China.</p> | <p>HAZARD: The zippers on the bean bag chairs can be opened by children who can then crawl inside, get trapped and suffocate or choke on the bean bag chair’s foam beads.</p> <p>INCIDENTS/INJURIES None reported.</p> | None reported. |
