USA	<p>NAME OF PRODUCT:</p> <p>Children's Animal-themed Sweaters</p> <p>UNITS: About 3,100</p> <p>DESCRIPTION</p> <p>These animal-themed, hooded children's sweaters are 100 percent wool when produced in Nepal and 50 percent wool and 50 percent acrylic when produced in Bangladesh. The sweaters have a tag sewn on the left seam several inches above the hem with the company name and the place of origin. The company name is also located on a patch on the left sleeve at the cuff and on a patch in the collar.</p> <p>IMPORTER</p> <p>None reported.</p> <p>MANUFACTURED IN: Nepal and Bangladesh</p> 	<p>HAZARD:</p> <p>The sweaters have a drawstring around the neck area that poses a strangulation hazard to children. Drawstrings can become entangled or caught on playground slides, hand rails, school bus doors or other moving objects, posing a significant strangulation and/or entanglement hazard to children. In February 1996, CPSC issued guidelines about drawstrings in children's upper outerwear. In 1997, those guidelines were incorporated into a voluntary standard. Then, in July 2011, based on the guidelines and voluntary standard, CPSC issued a federal regulation. CPSC's actions demonstrate a commitment to help prevent children from strangling or getting entangled on neck and waist drawstrings in upper outerwear, such as jackets and sweatshirts.</p> <p>INCIDENTS/INJURIES</p> <p>None reported.</p>	Consumers should immediately take the recalled sweater away from kids and remove the drawstring, or return the sweater to Kyber Outerwear for a full credit for Kyber products.
